

LPH80

HVLP miniature spray gun

LPH80 HVLP miniature center post spray gun is designed for a variety spraying situations.

Spray patterns ranging from 1.6 inch round pattern to a full 5.5 inch fan pattern the LPH80 is ideal for large backgrounds, spot repair, blending, shading and touch-up.

The 1.0/1.2mm nozzle size models have two different air cap setups to cover small to large spray areas and are converted by just a change of the air cap.

Low operating air pressure and low 1.8 CFM allow the LPH80 to be run with small air compressor, perfect for mobile repair.

- The 102G/122G's E2 air cap is inspired by the fine atomizing technology of the LPH50.
- The 104G/124G's new E4 air cap creates finer, wider and flat pattern.
