

# LPH440

## HVLP primer spray gun

ANEST IWATA's LPH440 HVLP primer spray gun is designed specifically for spraying primers, sealers and fillers. The LPH440 creates a sharp edged spray pattern designed for optimal overlap. This combined with the LPH440's fine soft atomization helps to reduce over spray and increase working speed.

- A sharp edged spray pattern reduces over spray and minimizes masking
- Fine atomization creates an even film and saves sanding time
