MSGS-200

MSGS-200 combines the advantages of airless technology (speed, low overspray) with the advantages of conventional technology (excellent finishing) resulting in a product with high transfer efficiency and excellent finish quality.

Superior Design. Based on the breakthrough design of the SUPERNOVA, the **MSGS-200** combines perfect balance and optimal ergonomics.

Chrome plated gun body is easy to clean and maintain.

New Air Cap configuration creates increased pattern width control.

Quick and easy cap rotation. Plastic protection and PTFE packing make cap adjustment a simple and precise operation.

Soft trigger reduces fatigue.
